

## **Membership form – ISTE**

Per 7 June 2018, the International Society of Transdisciplinary Engineering was officially registered. Gradually, we build an ISTE community. On our website [www.intsoctransde.org](http://www.intsoctransde.org) additional information can be found on our history, publications, future conferences, a policy statement, and this membership form.

What advantages does an ISTE membership have for you? You will receive:

- A quarterly newsletter
- Conference information
- Announcements of special issues

The membership fee is €0. The advantage of being a member is that you will remain informed about the community and its activities.

With the information gathered through this form an ISTE member database can be build and maintained.
