TE2024 Conference (Jul 9th – 11th 2024)

<https://www.te2024.org.uk/>

TE2024 is coming!

We are now looking forward to seeing full paper submissions for those who've submitted abstracts to the conference. We've recently announced an extension to the deadline for full paper submissions to Midnight (GMT) 8th April 2024. Remember to visit the website – www.TE2024.org.uk – for the dummy article template and advice on how to pitch your paper successfully.

We are also looking out for reviewers to join the full reviewing process. With over 140 papers each getting 2 blind peer reviews, we have a major task of doing 280 peer reviews in just 6 weeks. [Get in touch](#) if you are happy to review a few papers – even if you can't make TE2024 this year – and we'll add you to the system. Reviewers are the hidden heroes of science!

Featured Workshops @TE2024

Workshop title: TE issues and challenges of innovation and intellectual property protections reflecting social changes.

Time: 8 July 2024. 2:30PM ~ 4:30PM

Panellists (tentative):

- Amy Trappey (Editor-in-Chief - World Patent Information, WPI; Professor - National Tsing Hua University, Taiwan)
- Alfred Radauer (Associate Editor - WPI; Professor - IMC University of Applied Sciences, Krems, Austria)
- Jane List (WPI previous EiC; Extract Information Ltd, UK)
- Simon Jones (Publisher, Elsevier, UK)
- Josip Stjepandic (Director - PROSTEP AG, Germany)
- Florina Piroi (Editorial Board Member - WPI; Researcher - TU Wien, Austria)

Workshop flow:

Session 1 - All panellists will present short talks based on their expertise (5~10 mins max) in IP/patent information, IPR protection, innovation challenges related to TE in the dynamically changing society. Topics of interests include (but not limited to):

- World patent administration, publishing, and protection.
- Intellectual property (as intangible asset) management for the IP owners and users.
- Modern content and copyright management/publishing/protection.

- Transdisciplinary nature of IP information research (science, technology, law, and governance).
- Impact of AI, machine/deep learning, natural language process (NLP), language model (LM) in the field of WPI.
- Promote TE-oriented WPI research topics.

Session 2: Open discussion forum for all audiences and panellists.

Session 3: Introduce WPI special issues – Special topics call-for-papers (IP Policy and Management; Applications of Generative AI and Large Language Models in the Patent Domain)

Contact: Amy Trappey, trappey@ie.nthu.edu.tw

ISTE Membership

Since the last newsletter we have grown from 223 to 227 members (13/03/24). Please continue to promote the Society through your networks and if you see any opportunities for us to reach new audiences, please let us know.
